Type: ROUTINE INSPECTION
Date: 26-OCT-2023

2.126(a)(2)

Access and inspection of records and property; submission of itineraries.

Availability of records: At the time of the inspection, the Licensee could not locate the written Program of Veterinary Care (PVC) that is required under the AWA when an exhibitor employs a part-time Attending Veterinarian. As a result, the written PVC could not be reviewed during the inspection.

Per this Section, all documents that are required to be kept under the Animal Welfare Act (AWA) should be available at the time of an inspection so the required documents can be reviewed to determine compliance with the provisions of the AWA. Copies of all documents and records required under the AWA need to be on the premises and available for review. Correct by 11/6/23.

3.154

Environment enhancement to promote psychological well-being.

Although the birds at the facility were socially housed and were provided with materials to enhance their environment, a written plan for environmental enhancement to promote the psychological well-being of the birds had not been developed and was not available for review at the time of the inspection.

Per this Section, exhibitors must develop, document, and follow a species-appropriate plan for environment enhancement to promote the psychological well-being of birds. The plan must be approved by the Attending Veterinarian and must be in accordance with currently accepted professional standards. At a minimum, the plan must address each of the following: social grouping, environmental enrichment, special considerations, restraint devices, and exemptions. The Licensee needs to develop an environmental enrichment plan appropriate for the species of birds maintained and the plan must be approved by the Attending Veterinarian. Correct by 12/1/23.

This inspection and exit briefing were conducted with Licensee.
