Type: ROUTINE INSPECTION  
Date: 17-DEC-2024

---

**3.156**

### Watering

A cage housing approximately 50 parakeets had two dirty water receptacles on the floor of the cage. The water was discolored and contained debris and excreta. There was no other source of drinking water for these animals. Dirty water poses a risk of contamination to the enclosed birds. Water receptacles for birds must be cleaned and sanitized as often as necessary to keep them free from contamination.

Corrected at time of inspection.

This inspection and exit interview were conducted with the facility representative.

Additional Inspectors:

MICHAEL TYGART, VETERINARY MEDICAL OFFICER
