### ENVIRONMENT ENHANCEMENT TO PROMOTE PSYCHOLOGICAL WELL-BEING.

The facility has two new primates and both of these animals are provided with environmental enrichments. However, a written environmental enrichment plan was not in place. A written plan must be developed, documented and followed to ensure that the non-human primates are provided with enrichments to promote their psychological well-being.

The plan must be in accordance with the currently accepted professional standards as cited in appropriate professional journals or reference guides, and as directed by the attending veterinarian.

TO BE CORRECTED BY: FEBRUARY 10, 2017

This inspection and exit briefing were conducted with the facility representative.
