8103 Racel Road  
Las Vegas, NV 89131

Customer ID: **16295**  
Certificate: **88-C-0205**  
Site: 001

GILCREASE NATURE SANCTUARY

Type: ROUTINE INSPECTION  
Date: 28-DEC-2016

### 3.125(a)

#### FACILITIES, GENERAL.

Outdoor Goat Pen: There were sections of wire fencing material attached to wooden posts located within the enclosure which were bent, loose and in disrepair resulting in gaps and several, sharp, protruding wire ends. Additionally, a long, metal nail was protruding from a wooden post and the pointed ends of at least two pieces of wire were protruding inward along the enclosure fence. Openings or gaps in wire fencing poses the risk of an animal getting parts of their body caught, trapped or injured. Also, sharp, protruding points or edges in areas of contact with the animals may lead to injury.

All enclosures must be kept in good repair and free of sharp points, protruding edges or other hazards in order to protect the animals from injury and properly contain the animals. A system of timely identification, facility repair and maintenance must be in place.

Correct by 01/14/2017.

This inspection and exit interview were conducted with a facility representative.
