Type: ROUTINE INSPECTION
Date: 28-FEB-2024

2.40(b)(2)

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

Some medications had been transferred out of the original containers and no longer had the expiration dates present on the labels. In addition, some of these medications were commingled in a plastic container that also contained properly labeled medications.

All medications and medical supplies must be labeled appropriately, including the drug name, concentration, and expiration date if transferred out of the original container.

All medications shall be properly labeled with the required information. Corrected during the inspection.

This inspection and exit interview were conducted with the facility representatives.
