Virginia Safari Park Inc
Po Box 147
Natural Bridge, VA 24578

Customer ID: 2481
Certificate: 52-C-0166
Site: 002
RESTON ZOO INC

Type: ROUTINE INSPECTION
Date: 22-MAR-2016

3.131(c)

SANITATION.

*** In the barn housing sheep, goats, and pigs there are several cracks in the floor near the sheep stall closest to the pig stall on the left side of the barn. There is a deep crack in the concrete approximately 4 inches with crumbling concrete surrounding it. Cracks in the floor allow the harborage of vermin and debris and creates areas of standing water that attract pests, such as mosquitos. Standing water can seep under the fence into animal stalls. Buildings and grounds kept in good repair ensure animal areas are cleaned and sanitized properly. Well kept facilities also help to maintain an effective pest control program. The crumbling concrete and cracks must be repaired to ensure animals are maintained in a clean environment. Correct by April 15, 2016

The exit briefing was conducted with the facility representatives.
