

## Inspection Report

---

Todd and Vicki Lantz  
2763 County Road 618  
CAPE GIRARDEAU, MO 63701

Customer ID: **4335**  
Certificate: **43-B-3618**  
Site: 001  
TODD & VICKI LANTZ

Type: ROUTINE INSPECTION  
Date: 26-SEP-2023

---

### 3.153(a)(1)(iii)

#### Primary enclosures.

During the inspection a single budgerigar was seen climbing on the outside of the budgerigar enclosure, it had escaped from the enclosure. Enclosures that do not securely contain animals can lead to unintentional or accidental escape and injury of the animals. The budgerigar enclosure must be designed and constructed to ensure that the birds are contained securely.

Correct by: October 24, 2023.

### 3.153(a)(1)(vi)

#### Primary enclosures.

An enclosure containing 4 pigeons had no shelter within the primary enclosure. Birds housed in enclosures that do not provide adequate protection from environmental extremes may suffer from stress, discomfort or even death. All birds must be housed in enclosures that provide shelter and protection from climatic and environmental conditions.

Correct by: October 24, 2023.

### 3.154

#### Environment enhancement to promote psychological well-being.

The avian environmental enhancement plan available at time of inspection had not been approved by the attending veterinarian. A written plan for environment enrichment is necessary to ensure the psychological well-being and overall health of the birds. An environment enhancement plan must be developed, documented, and be species- appropriate. The plan must be approved by the attending veterinarian and must address social grouping, environmental enrichment, special considerations, restraint devices, and exemptions.

Correct by: October 24, 2023.

This inspection and exit interview were conducted with facility representatives.
