### 3.125(a)

#### FACILITIES, GENERAL.

\*\*\*In the alpaca's primary enclosure there is a fence that has excess wire hanging from it. There is enough slack in the hanging wire for the animals to become entangled. Also some of the wire has pointy ends which could injure the animals. The excess wire shall be removed and/or repaired to protect the animals from injury. Correct by October 13, 2014.

The exit briefing was conducted with the owner.
