MINI MOO PETTING ZOO LLC

Type: ROUTINE INSPECTION

Date: 28-SEP-2015

2.40(b)(2)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

One of the two sheep did not lose its winter coat throughout the hot summer months and its now Fall where the ambient temperatures are still over 90F. This sheep appears to have more woolly fibers and matted so it needs to be groomed as needed and sheared when the temperatures could cause discomfort and overheating. Each exhibitor shall establish and maintain programs of adequate veterinary care.

TO BE CORRECTED BY: OCTOBER 9, 2015.

3.129(b)

FEEDING.

The roll of hay for the goats, sheep, and zebu is outside on the ground without cover. The recent heavy rains and the hay on the wet dirt surface could cause this hay to become moldy and cause illness. Food shall be placed so as to minimize contamination and adequate measures shall be taken to prevent molding, contamination, and deterioration.

TO BE CORRECTED BY: OCTOBER 9, 2015.

The exit interview was conducted with the licensee.
