Type: RE-LICENSE INSPECTION  
Date: 07-SEP-2022

---

### 3.125(a)

#### Facilities, general.

Within the outdoor housing facility of two nilgai, two areas of disrepair were observed:

- An unused, deteriorating, hanging roofed hay feeder was loosely attached to the interior of the enclosure's fence. It was hanging sideways, no longer secured, and therefore, not structurally sound.
- Metal fence panels were lying in the pasture close to the back enclosure fence.

Both areas may cause injury to the animals if the hay feeder falls, has sharp nails protruding, or the metal fence panels entrap the animals' limbs. The housing facility must be structurally sound and maintained in good repair to protect the animals from injury.

MUST BE CORRECTED BY: SEPTEMBER 22, 2022.

### 3.127(d)

#### Facilities, outdoor.

Two sides of the perimeter fence near the bear enclosure were not in compliance. On the left side, there is overgrowth of vegetation including trees, vines, and shrubs growing on top and through the fence which may compromise the effectiveness of the structure. The left rear corner is leaning in toward the bear enclosure, decreasing its height, and is

## Inspection Report

---

not structurally stable. Additionally, along the left rear side and back portion of the perimeter fence there are multiple significant gaps under the fence that may allow unwanted animals and/or people to access to the bear, which may expose it to hazards such as disease, distress, and/or injury. The overgrowth of vegetation must be cut back and removed from the perimeter fence, the left rear corner become structurally sound, and all holes under the fence must be eliminated while maintaining an 8-foot height.

MUST BE CORRECTED BY: SEPTEMBER 22, 2022

This is a 1st Re-License Inspection for a Class "C" license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspections or by NOVEMBER 5, 2022 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.

Regulated activity can continue under your existing USDA license until it expires.
