Type: ROUTINE INSPECTION
Date: 03-NOV-2015

3.11(b)(3)

CLEANING, SANITIZATION, HOUSEKEEPING, AND PEST CONTROL.

Licensee is currently spreading lime on gravel runs and under one set of elevated runs inside a building. The method of sanitization does not meet one of the three methods described in this section. Inadequate sanitization can expose the dogs to disease hazards such as bacterial, viral, and fungal diseases. Licensee shall contact the attending veterinarian to discuss proper cleaning and sanitation products and procedures. Licensee must properly clean and sanitize primary enclosures and surfaces under elevated runs at least once every 2 weeks. Correct by November 15, 2015.

An exit briefing was conducted with the licensee.
