

Inspection Report

Challen Ramsey
741 Hwy 28
Randall, KS 66963

Customer ID: **322280**
Certificate: **48-A-2094**
Site: 001
Challen Ramsey

Type: ROUTINE INSPECTION
Date: 05-NOV-2015

3.4(b)(3)

OUTDOOR HOUSING FACILITIES.

One shelter structure in an outdoor enclosure is without a wind and rain break. Failure to provide a barrier from the elements can result in a dog that becomes wet and uncomfortable. In some weather, a dog that does not have a barrier from the elements is unable to maintain a safe body temperature. All dogs must be provided with shelter from the elements which includes wind and rain breaks at the entrance to shelter structures in outdoor enclosures. To be corrected by 19 Nov 2015.

3.9(b)

FEEDING.

Two food receptacles are dirty around the top of the interior in contact with the food. Dirty food receptacles can lead to contamination of the food and decrease in nutritive value. The licensee must ensure that food receptacles are kept clean and sanitized in accordance with 3.11 b of this subpart. To be corrected by 9 Nov 2015.

The inspection and exit interview were conducted with the licensee, Kendall Lundy, ACI and Margaret A Shaver, VMO in attendance.

Additional Inspectors

Lundy Kendall, Animal Care Inspector

Prepared By: MARGARET SHAVER, D V M USDA, APHIS, Animal Care
