Customer ID: **502909**
Certificate: **23-A-0670**
Site: 001
EZRA KAUFFMAN

Type: ROUTINE INSPECTION
Date: 15-DEC-2021

3.25(c)

Facilities, general.

Storage. There are bags of feed and bedding on the floor along the walls of the guinea pig room. There is an open bag of shavings on the floor in the rear corner. Food and bedding supplies must be stored in a manner that protects supplies from spoilage, deterioration, insects, and vermin. Storing bags of feed on the floor next to walls can allow contamination of the supplies. Licensee must ensure that food and bedding supplies are stored in a manner that protects supplies from contamination such as on pallets or platforms and away from walls. Correct by December 21, 2021.

This inspection was conducted with the licensee and the exit interview was conducted with a family member.
