

Inspection Report

METRO RICHMOND ZOO

8300 Beaver Bridge
Moseley, VA 23120

Customer ID: **2469**

Certificate: **52-C-0028**

Site: 001

METRO RICHMOND ZOO

Type: ROUTINE INSPECTION

Date: 03-JUN-2025

3.75(c)(1)

Housing facilities, general.

In the small mammal primate building there are five shift doors with excessive rust, one with flaking and disintegrated metal, and an enclosure with two areas of broken wire leaving exposed sharp tips. Excessive rust prevents surfaces from being cleaned and sanitized and disintegrating metal compromises the structural strength of the surface. Inadequate cleaning and sanitation can lead to illness and disease in the animals. The exposed wires with sharp points can cause injury to the animals. Correct by 19 June 2025 by ensuring that all surfaces that come into contact with non-human primates are free of excessive rust that prevents the required cleaning and sanitization, or that affects the structural strength of the surface; and be free of jagged edges or sharp points that might injure the animals.

This inspection and exit interview were conducted with a facility representative.

Additional Inspectors:

MARY ANN MCBRIDE, SUPERVISORY ANIMAL CARE SPECIALIST
