Type: ROUTINE INSPECTION
Date: 05-APR-2017

3.81(b)

ENVIRONMENT ENHANCEMENT TO PROMOTE PSYCHOLOGICAL WELL-BEING.

At the time of inspection, the exhibitor had a written non-human primate (NHP) environmental enrichment plan. Currently, the facility does provide environmental enrichment for their non-human primates. However, the opportunities for foraging and task-oriented feeding methods for their baboons and rhesus macaques were limited. Additional enrichment, such as other cage complexities that are noninjurious for NHPs involved, should be utilized to encourage normal species specific behavior.

TO BE CORRECTED BY: 28 April 2017

3.127(b)

FACILITIES, OUTDOOR.

In the Sika deer enclosure, there was no shelter present. It was blown out of the enclosure into the adjacent lake by strong winds a few weeks prior to inspection. Facility shall provide all animals kept outdoors shelter from the elements for their protection and to prevent discomfort.

TO BE CORRECTED BY: 14 April 2017

This inspection and exit interview were conducted with facility representatives.
