

Inspection Report

American Airlines Inc.
4333 Amon Carter Blvd Md 4418
Fort Worth, TX 76155

Customer ID: 1538
Certificate: 74-T-0007
Site: BWI

AMERICAN AIRLINES INC.

Type: ROUTINE INSPECTION
Date: 08-DEC-2015

3.13(c)(3)

CONSIGNMENTS TO CARRIERS AND INTERMEDIATE HANDLERS.

The food and water certificate attached to the primary enclosure housing a miniature pincher puppy was not complete (see air waybill number 001TUL69811416). The food and water instructions were not filled out for the next feeding(s) and watering(s) for a 24 hour period. Failure to complete the food and water instructions at the airport origin may result in the animal not being feed and watered during transport. The food and water certificate must be complete and attached to the primary enclosure with instructions for the next feeding(s) and watering(s) for a 24-hour period.

3.16(c)

FOOD AND WATER REQUIREMENTS.

The food and water receptacles were detached and lying on floor in the back of the primary enclosure housing a miniature pincher puppy (see air waybill number 001TUL69811416). There was no safe way for the carrier to offer water or food without the receptacles being securely attached inside the front door of the enclosure. Food and water receptacles must be securely attached inside the primary enclosure and placed so that the receptacles can be filled from outside the primary enclosure without opening the door.

An exit briefing was conducted with the manager on duty.

Additional Inspectors

Wills Karla, Animal Care Inspector
