

## Inspection Report

Bar Sgr Llc  
32193 Winery Way  
Lewes, DE 19958

Customer ID: 6192  
Certificate: 50-C-0013  
Site: 001  
BAR SGR LLC

Type: ROUTINE INSPECTION  
Date: 24-MAY-2016

### 3.131(c)

#### SANITATION.

\*\*\*Goat Pen: The hay cover has several holes. The holes will allow rain to pass through. Excessive moisture of the hay could lead to mold and reduce the nutritive value of the hay. The hay cover must be repaired or replaced to adequately protect the hay from excessive exposure to moisture and to ensure the hay the goats receive is wholesome. Correct by May 30, 2016.

\*\*\*Deer Pen - tin shelter: The bottom edge at the back of one shelter is showing wear. The damage leaves a rough edge and creates a gap between the ground and the bottom of the shelter. The shelter should be kept in good repair to ensure animals are not exposed to excessive water leakage and to prevent injury. The shelter must be repaired to close the gap and smooth the edges to prevent water from coming into the shelter and ensure no animals are injured. Correct by June 3, 2016.

The exit briefing was conducted with the facility representative.
