CONSIGNMENTS TO CARRIERS AND INTERMEDIATE HANDLERS.

*During this inspection two adult dogs, a Bichon and Chihuahua mix, housed in separate primary enclosures and traveling on AWB 016ELP47318412 arrived at IAH from ELP. The dogs were continuing on to Germany (FRA). The food and water certification attached to the outside of the enclosures did not contain the date and time that the dogs were last fed and watered and the instructions for feeding and watering for the next 24 hour period.

*During this inspection a Husky puppy arrived at IAH from RDU and was continuing on to ALB. The food and water certification attached to the outside of the enclosure did not contain the date and time that the puppy was last fed and watered or instructions for feeding and watering for the next 24 hours,

To ensure dogs are fed and watered during transport according to the standards and regulations of section 3.16 under the AWA the required certifications for travel must be complete. A carrier must not accept a dog for travel unless the certification signed by the consignor contains the date and time of last watering and feeding and food and water instructions for the next 24 hours. In cases of extended travel and unforeseen delays these instructions will provide information to those unfamiliar with the animals that may prevent potential dehydration and nutritional compromise.

Correct by: Immediate

The inspection and exit interview were conducted with supervisor SMCargo.
