3.80(a)(2)(iii)

PRIMARY ENCLOSURES.

*** A Ringmail lemur was found outside of its enclosure sitting on the public barrier fence during this inspection. The licensee stated that the lemur has been able to escape from its enclosure occasionally and they are currently trying to determine how it is able to get out. The licensee returned the lemur to the primary enclosure during this inspection. Failure to provide enclosures that properly contain the animals puts the animals and the public at risk or injury. The facility must determine the route of escape this lemur is using and make repairs or improvements to the enclosure to prevent escape.

Correct by: 7-15-17

***Inspection conducted on 7-6-17 with the licensee. Exit interview by phone with the licensee following consult with attending veterinarian on 7-12-17.
