JAROD MILLER

Type: ROUTINE INSPECTION

Date: 01-JUL-2014

3.131(d)

SANITATION.

*** The wallaby enclosure in the main building had an abundance of fruit flies in the enclosure around the animal and fruit on the ground. Although the facility has a fly trap near the diet prep area, it does not seem to be effective for this particular area of the building. This needs to be addressed for the health of the animal.

Correct by: July 4, 2014

An exit briefing was conducted with the licensee at the time of the inspection.
