City Of Kearney
P.O. Box 1180
Kearney, NE 68848

Customer ID: **23058**
Certificate: **47-C-0064**
Site: 001
CITY OF KEARNEY

Type: ROUTINE INSPECTION
Date: 04-JUN-2014

2.40(a)(1)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

The licensee has two attending veterinarians and written Programs of Veterinary Care (PVC). However, the written PVCs are incomplete. In the PVC for hoofstock, the sections "Ectoparasites, Blood Parasites, and Internal Parasites" state, "Ivermectin once yearly," but do not specify dosage or route of administration. In the other PVC these same sections state, "As needed," but there are no types of drugs or methods, dosage, route of administration, frequency, or concentration listed for these routine treatments. In addition, the vaccination schedules are unclear. In the Dogs and Cats section, it shows the cats have been vaccinated on a specific date, but not how often the veterinarian recommends. In the Other Warm-Blooded Animals section, the vaccination schedule is also unclear. It states, "Rabbits Distemper," but not how often it should be given. In the Euthanasia section it states, "Sleepaway," but not the route of administration.

Clear, complete PVCs are important for the proper understanding between animal caretakers and the attending veterinarians, and to ensure medical treatments are administered accurately with the direction and knowledge of the attending veterinarians. The licensee must ensure that the PVCs are filled in completely and accurately.

To be corrected by: July 5, 2014.

The facility inspection was conducted with an employee.

The inspection of records and the exit interview were conducted with the facility manager.
