Animals Galore and More

Type: FOCUSED INSPECTION

Date: 27-FEB-2024

2.131(c)(1)

Handling of animals.

On February 02, 2024, during a private animal tour a small child member of the public was photographed interacting with a serval, cavy, and wallaby without sufficient distance and/or barriers between the animals and the member of the public. The serval was observed to have access to a raised platform inside the enclosure to get away from the public during the interaction but was not otherwise restrained. The licensee stated she is no longer allowing public contact as of February 16th, 2024. During public exhibition, any animal must be handled so there is minimal risk of harm to the animal and to the public, with sufficient distance and/or barriers between the animal and the general viewing public so as to assure the safety of animals and the public.

Corrected prior to inspection on February 16, 2024

This inspection and exit interview were conducted with the facility representative.
