Site: 001

SPACE WILD ANIMAL FARM INC

Type: FOCUSED INSPECTION

Date: 22-AUG-2023

2.40(b)(2)

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

At the time of inspection, three llamas were observed having thick and matted coats. The llamas showed no signs of heat stress and were walking around the enclosure. One brown llama with a white face appeared to be weighed down by its coat while walking. According to the representative, these llamas would normally blow out their coats on their own, but the llamas are older in age.

The use of appropriate methods to prevent, control, diagnose, and treat diseases and injuries, and the availability of emergency, weekend, and holiday care.

To Be Corrected By: September 8, 2023

This inspection and exit interview were conducted with facility representative.
