### 3.150(a)

#### Facilities, general.

The rear wall of the duck shed/building is lined with a section of wall board. This material has been damaged at the base making it no longer flush with the floor. This damaged wall board is in disrepair and no longer structurally sound. The damaged wall shall be repaired so that it is structurally sound and maintained in good repair.

Housing facilities for birds must be designed and constructed so that they are structurally sound for the species of bird housed in them. They must be kept in good repair, protect the birds from injury, and restrict other animals from entering that may negatively affect the welfare of the birds within.

TO BE CORRECTED BY: MAY 28, 2024

### 3.154(a)

#### Environment enhancement to promote psychological well-being.

Facility has a variety of birds, all of which are provided with enrichments to enhance their environments and promote their health and well-being. However, a developed plan has not been documented and reviewed by the attending veterinarian. Facility must develop and document, and follow a species-appropriate plan for environment enhancement for its birds. The attending veterinarian should review and approve said plan.

Dealers, exhibitors, and research facilities must develop, document, and follow a species-appropriate plan for environment enhancement adequate to promote the psychological well-being of birds. The plan must be approved by the attending veterinarian and must be in accordance with the regulations in this subpart and with currently accepted professional standards as cited in appropriate professional journals or reference guides.

TO BE CORRECTED BY: MAY 28, 2024
