Worcester, MA 01608

Customer ID: **23918**

Certificate: **14-R-0192**

Site: 003

BIOMEDICAL RESEARCH MODELS INC

Type: ROUTINE INSPECTION

Date: 28-JUL-2015

3.75(c)(2)

HOUSING FACILITIES, GENERAL.

Maintenance and replacement of surfaces.

1. The fabric hammocks in several of the marmoset enclosures were noted to be excessively worn with some frayed edges and hole(s) 1/2" x 1/2" to 1 1/2" x 1" in size. The condition of these hammocks pose a hazard to the animals from ingestion of the frayed fabric fibers or from the possible entrapment of a limb.

Per this Section of the Regulations, surfaces of housing facilities including houses, dens, and other furniture-type fixtures and objects, must be replaced when worn. This is important for the safety and health of the animals.

The research facility corrected this item by the end of the inspection by removing the excessively worn hammocks from the primary enclosures and replacing them with other hammocks.

NOTE - Exit interview held 7/28/15 on-site with facility representative. Report delivered by e-mail 8/3/15.
