DEH BOK LOGISTICS

Type: FOCUSED INSPECTION

Date: 20-DEC-2016

---

### 2.25(a)

#### REQUIREMENTS AND PROCEDURES.

The facility was identified as a courier that delivers rabbits from the San Diego airport to local research facilities during a routine inspection of a local research facility.

These transportations occurred without an active registration. It is critical for intermediate handlers to register with USDA to allow adequate regulatory oversight. The facility shall file an initial registration form and update it every 3 years to maintain their status as an intermediate handler with USDA.

Correct by registering with the USDA as an intermediate handler prior to any further transportation of regulated animals.

NO REGULATED ACTIVITIES MAY BE CONDUCTED UNTIL A VALID USDA REGISTRATION IS OBTAINED.

An exit interview was conducted by phone with the owner on December 20, 2016, and a registration packet was sent by the office on 21 December, 2016.
