City of El Paso
4001 E. Paisano Drive
El Paso, TX 79905

Customer ID: **3888**
Certificate: **74-C-0052**
Site: 001
City of El Paso

Type: ROUTINE INSPECTION
Date: 23-SEP-2024

3.80(a)(2)(ix)

Primary enclosures.

In an enclosure housing one adult female cotton top tamarin and one adult male golden lion tamarin, there is paint on the ceiling that is peeling away from the surface and is hanging downward. The ceiling in this area is accessible to the animals from the top climbing branches in the enclosure, and a facility representative stated that the animals are known to peel the paint from the ceiling with their fingers.

Surfaces with peeling paint cannot be readily cleaned and sanitized, and may harbor organic matter or disease-causing organisms; additionally, peeling paint poses a risk of illness to the animals due to ingestion. The facility must ensure that all surfaces that come into contact with non-human primates are maintained in good repair and can be readily cleaned and sanitized in accordance with section 3.84(b)(3) in order to protect the health and well-being of the animals.
TO BE CORRECTED BY OCTOBER 11, 2024

This inspection and exit interview were conducted with facility representatives.
