Certificate: **23-A-0690**
Site: 001
BARBARA SMUCKER

Type: ROUTINE INSPECTION
Date: 15-SEP-2021

3.25(a)

Facilities, general.

Structural strength. Five enclosures had missing blue strips on the front sides. Without the extra blue strips the sides are only 4 inches in height that are low enough that guinea pigs can easily cross the barrier. The highest enclosures are as much as 5 feet from the ground. Licensee must ensure that all housing facilities for guinea pigs are constructed in a manner that contains the guinea pigs and prevents injury and escape. Correct by October 1, 2021.

This inspection was conducted with a family member and the exit interview was conducted with the licensee.
