CENTRE HALL, PA 16828

Customer ID: **2262**  
Certificate: **23-C-0042**  
Site: 001  
PENN'S CAVE

Type: ROUTINE INSPECTION  
Date: 27-OCT-2020

---

### 2.40(b)(3) Critical

#### Attending veterinarian and adequate veterinary care (dealers and exhibitors).

During a 6 week period in the summer, from June 19 to July 31, there were 10 fawns that died at the facility. In most cases the fawns were found dead with undetermined cause of death. The facility reported they left a message with the secretary at the office of the attending veterinarian but did not follow up and the attending veterinarian confirmed there was no communication regarding the possible causes or measures to address the deaths.

Failure to communicate information about problems of animal health in a timely manner with the attending veterinarian can result in continued illness and death.

The facility must ensure there is an adequate method of direct and frequent communication so that timely and accurate information on problems of animal health is conveyed to the attending veterinarian.

Correct from this day forward

This inspection and exit interview were conducted with the facility owner.
