

## Inspection Report

CRISTO REY RANCH INC

N8114 County WW  
Mount Calvary, WI 53057

Customer ID: **2734**

Certificate: **35-C-0145**

Site: 001

CRISTO REY RANCH, INC.

Type: ROUTINE INSPECTION

Date: 21-DEC-2023

### 2.75(b)(1)

#### Records: Dealers and exhibitors.

The licensee is lacking an updated inventory and complete acquisition and disposition records for all animals housed on site. Inventory and associated records allow Animal Care officials to track movement and whereabouts of the animals. Especially since some animals are sent away on loan each year to other facilities, this information is important to knowing the location and identification of animals that are away. A current inventory with all required information must be maintained for animals on hand, any offspring born on premises, and animals sold, transferred, or dead.

\*\*\*Correct by 1-22-24.

### 2.134

#### Contingency planning.

The licensee is lacking a written contingency plan that was required to be in place by July 5, 2022. Exhibitors must develop, document, and follow an appropriate plan to provide for the humane handling, treatment, transportation, housing and care of their animals in the event of an emergency or disaster. The contingency plan must identify emergency situations one could reasonably expect in the area, outline specific tasks to be carried out, identify a chain of command, and address how response and recovery will be handled. Not having a written plan in place could cause delay of critical help for the animals and could negatively affect their health and well-being in the case of an emergency or disaster.

\*\*\*Correct by 1-22-24.

### 3.154

#### Environment enhancement to promote psychological well-being.

The licensee is missing a completed and approved environmental enrichment plan for the birds on premises. They have a number of varieties of species of poultry, as well as exotics, and indoor pet birds. Social grouping is being considered and proper environmental enrichment is being provided to the birds, but the facility lacks a written plan that is approved by the attending veterinarian. The plan should include all required components including: social grouping, environmental enrichment, special considerations, restraint devices and exemptions. A species appropriate plan for environmental
