3.1(a)

Housing facilities, general.

The facility has new construction on the outside enclosures for the sheltered building that had gaps between the building and the enclosure. These gaps allowed some dogs to go between enclosures. These gaps could trap dogs or cause harm to dogs if they get into another enclosure. The applicant must ensure all enclosures contain the dogs securely .

3.3(e)(1)

Sheltered housing facilities.

The flooring in the building is not impervious to moisture. Flooring not impervious to moisture can harbor diseases and hold odors. The applicant must ensure surfaces are impervious to moisture.

3.13

Veterinary care for dogs.

Although the applicant had the attending veterinarian recently do a hands on exam and do fecal and heartworm tests, these were not recorded in the program of veterinary care. Also missing from the program of vet care was the preventative care section. Failure to have these plans could have a negative impact on the health and well-being of the animals. The Program of Veterinary Care must include a frequency of hands on exam, parasite sampling/testing and appropriate plan of preventative care and treatment to maintain healthy and unmatted hair coats, properly trimmed toe
