#### Contingency planning.

The contingency plan reviewed at time of inspection was underdeveloped and missing necessary components such as identifying specific emergencies, a chain of command and who is responsible for fulfilling tasks. An inadequate contingency plan could affect animal health and well-being. Licensees must develop an appropriate plan to provide for the humane handling, treatment, transportation, housing and care of their animals in the event of an emergency. This contingency plan must be reviewed annually and the documentation maintained thereof.

Correct by fully developing a contingency plan with the outlined components as described in the Animal Welfare Act by 30 June 2023.

This inspection and exit interview were conducted with licensee.
