Reid Park Zoo
1030 S Randolph Way
TUCSON, AZ 85716

Customer ID: **3439**
Certificate: **86-C-0002**
Site: 002
REID PARK ZOO

Type: ROUTINE INSPECTION
Date: 22-JAN-2025

3.129(a)

Feeding.

One of the free roaming adult peacocks roosts on top of hay bales in the hay barn that are to be fed out to various hoof stock species. This is evidenced by many feathers deposited on top of one of the hay bales. Failure to provide uncontaminated food for animals may result in illness or disease transmission. The food shall be wholesome, palatable, and free from contamination and of sufficient quantity and nutritive value to maintain all animals in good health.

Correct by 27 January 2025.

3.153(a)(1)(i)

Primary enclosures.

A sharp metal screw is hanging on the inside wall of the outdoor primary enclosure housing 1 adult Bald Ibis and 2 adult Raggiana Bird-of-Paradise. It appears to have been holding up a wooden perch or enrichment item. Sharp points that animals may come in contact with could cause bodily injury or harm. Primary enclosures must be constructed and maintained so that they have no sharp points or edges that could injure the birds. Corrected at time of inspection.

Correct from this date forward of 24 January 2025.

This inspection and exit interview were conducted with the facility representatives.
