Riverview, FL 33579

Customer ID: **6002929**

Certificate: **58-A-0365**

Site: 001

Moore Exotic Animal Ranch LLC

Type: ROUTINE INSPECTION

Date: 16-FEB-2022

3.127(d)

Facilities, outdoor.

A portion of the perimeter fence for the facility is less than 3ft in distance from the enclosure fencing for one Red Kangaroo. The current perimeter fence in that area is constructed of aluminum approximately 8 feet in height. The fence must be of sufficient distance from the outside of the primary enclosure to prevent physical contact between the animals inside the enclosure and animals or persons outside the perimeter fence. It may be determined that the current construction of the perimeter fence and enclosure fencing effectively prevents people and animals from entering the facility; however, the facility must obtain written approval for such a determination from the USDA APHIS Animal Care Administrator, as per subsections under 3.127(d).

Correct by March 31, 2022.

This inspection and exit interview were conducted with a Facility Representative.
