2.134(a)

Contingency planning.

There was no Contingency Plan developed or documented by the Licensee at the time of the inspection. A written plan should have been in place by 7/5/22.

Per this Section, exhibitors must develop, document, and follow an appropriate plan to provide for the humane handling, treatment, transportation, housing, and care of their animals in the event of an emergency or disaster (one which could reasonably be anticipated and expected to be detrimental to the good health and well-being of the animals in their possession). The contingency plan requirement ensures that the animals receive proper care during emergency situations. Correct by 9/8/23.

This inspection and exit briefing were conducted with facility representatives.
