Certificate: **86-C-0100**

Site: 001

BEARIZONA WILDLIFE PARK, L L  
C

Type: ROUTINE INSPECTION

Date: 30-OCT-2024

### 2.75(b)(1)(iii)

#### Records: Dealers and exhibitors.

There is incomplete information on the acquisition records for two young domestic goats, one adult domestic goat and two young peafowl. These records are incomplete because they do not have the vehicle license number and state, and the driver's license number recorded, which is required for persons who are not licensed or registered under the Animal Welfare Act. Complete and accurate animal records must be kept in order to facilitate tracking of animals. Records must be maintained that fully and correctly disclose information concerning all animals purchased or otherwise acquired, owned, held, leased, transported, sold, euthanized or otherwise disposed of and shall include any offspring born while in the licensee's possession. Specifically, the vehicle license number and State, and the driver's license number (or photographic identification card for nondrivers issued by a State) and State of the person, if he or she is not licensed or registered under the Act.

Correct by 1 November 2024.

### 3.125(a)

#### Facilities, general.

An approximately 3-foot section of buried chain link fencing skirt used as a dig barrier was exposed and jutting upward approximately 5 inches into the outdoor primary enclosure of 3 juvenile black bears. The exposed metal was located near the base of the wall constructed of wood and steel grating material. No injuries to the animals were noted at time of inspection. Outdoor housing facilities in disrepair may pose a risk of injury to animals or containment issues. The indoor and outdoor housing facilities shall be structurally sound and shall be maintained in good repair to protect the animals from injury and to contain the animals. Corrected at time of inspection.

Correct from this day forward of 31 October 2024.

This inspection and exit interview were conducted with the facility representatives.
