Type: ROUTINE INSPECTION

Date: 19-MAR-2015

2.40(b)(2)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

An adult female white standard poodle named Pippie (ID # OAO2380148) was observed shaking her head several times. Upon examination, her left ear had a lot of hair growing out of the ear canal. This hair was clumped and matted with a copious amount of a thick, oily, brownish-black material. The skin around the affected area was slightly reddened. There was no noticeable odor detected.

Ear problems can be extremely painful and/or itchy, can cause other health issues and affect the well-being of the animal.

The licensee must have this dog evaluated by the veterinarian for proper diagnosis and treatment, and provide the inspector the documentation of this visit upon request. The licensee must ensure all animals are given proper veterinary care at all times.

To be corrected by March 24, 2015.

Inspection and exit interview conducted with facility representative.
