SANITATION.

Housekeeping. The floor contains accumulations of scattered hay, bedding, boxes, and debris. There is a shelf below the first enclosure on the right by door that is filled with clutter, boxes, cobwebs, water bottles, dust, and debris. Animal facilities must be kept clean and in good repair to prevent unnecessary disease risks. Ineffective cleaning exposes the animals to disease hazards and health problems. Correct by ensuring that the premises are kept clean, including: removing accumulations of scattered hay, bedding, boxes, dust and debris from the floor and shelf; routinely dusting off and sanitizing all surfaces inside the facility, and maintaining a level of general cleanliness to support good animal husbandry and health. Correct by September 3, 2019.

This inspection and exit interview were conducted with the owner.
