Roseau, MN 56751

Customer ID: **2827**
Certificate: **41-A-0298**
Site: 001
S GLENICE VIKEN

Type: ROUTINE INSPECTION
Date: 15-NOV-2016

2.40(b)(2) REPEAT

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

A female Pomeranian microchip #005-008-600 continues to have problems with her teeth. The upper teeth remain covered in a dark hard material. Also a female Pomeranian microchip #045-839-905 has problems with her teeth. The upper teeth have a thick buildup of brownish colored material on their surfaces. Tooth problems can be painful and cause further health issues in dogs if not treated. To ensure that these dogs are not in pain and receive appropriate treatment have the attending veterinarian evaluate them to diagnose the teeth problems and treat them per the veterinarian's instructions. Documentation of the dog's diagnosis must be kept for future inspections.

3.1(c)(1) REPEAT

HOUSING FACILITIES, GENERAL.

Excessive rust development remains on one inside metal door flap in the first enclosure of the inside/outside building. The presence of rust can prevent the surfaces from being properly cleaned and sanitized. Eliminate the rust from the metal door flaps.

Inspection and exit interview were conducted with the licensee.

Additional Inspectors

Sime Debra, Veterinary Medical Officer
