Type: ROUTINE INSPECTION
Date: 18-MAY-2015

2.40(b)(2)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

*A red adult female Shiba Inu who was not identified with an official USDA tag was observed to have a problem with her left eye. The eye appeared to be normal in size and did not display any bulging; however the entire eye was white and cloudy. This condition may be causing undue pain and discomfort to the animal. The animal must be evaluated by the attending veterinarian and the prescribed treatment must be administered.

Correct By: May 27, 2015

*A red adult male Shiba Inu official USDA tag number 005 was observed to have an injury to the left side of his face just below his eye in the cheek/upper lip area. The wound was approximately one inch long by about half inch wide and appeared to be shallow in depth. The flesh of the wound was red and looked dry except for a small area in the center of the injury that still appeared to be moist. Failure to have the issue addressed by the attending veterinarian can result in additional pain and discomfort to the animal. The animal must be evaluated by the attending veterinarian and the prescribed treatment must be administered.

Correct By: May 22, 2015

2.50(a)(1)

TIME AND METHOD OF IDENTIFICATION.

Approximately half of the dogs were observed to not be wearing official USDA identification tags. Lack of official USDA tags on the animals does not allow for proper identification or trace backs of the animals. Licensee must identify all dogs over 16 weeks of age on the premise with official USDA tags.

Inspection Report

RECORDS: DEALERS AND EXHIBITORS.

The licensees Record of Acquisition of Dogs on Hand (form 7005) is incomplete.

*In the Acquired From section box I the licensee has only documented the name of who he acquired the animals from, no other required information is provided.

*Twenty-four of the dogs listed on the 7005 do not have an official USDA tag number documented in box A.

Not providing complete and accurate information does not allow for proper tracing of the animals by an APHIS official. The 7005 form must be updated to include all required information.

Correct By: May 27, 2015

Inspection and exit briefing conducted with facility representative.
