

Inspection Report

Stokoe Farms LLC
656 South Road
Scottsville, NY 14546

Customer ID: **6010407**
Certificate: **21-C-0492**
Site: 001
Stokoe Farms LLC

Type: RE-LICENSE INSPECTION
Date: 02-OCT-2024

3.125(a)

Facilities, general.

The plastic wind/rain break for the cavy has been chewed and torn and no longer functions as a rain/wind break. This section of plastic flap needs to be replaced to keep the shelter in good repair for the safety of the cavy.

3.129(b)

Feeding.

The plastic PVC tubes used for guests to feed the crested porcupine and pigs needs to be cleaned. There is an accumulation of debris down the tube that needs to be removed on a frequent basis to keep the tube feeder clean for the health of the animals.

3.154

Environment enhancement to promote psychological well-being.

The facility does not have an environmental enhancement plan in place to promote the overall psychological well-being of the birds at the facility. Exhibitors must develop, document and follow a species appropriate plan for the environmental enhancement to promote the psychological well-being of the birds that is within industry standards and approved by the attending veterinarian. This plan must be made available for future inspections.

This is a 1st Re-License Inspection for a Class "C" license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within (2) more inspection(s) or by Dec 2, 2024 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.

Regulated activity can continue under your existing USDA license until it expires.
