EAST MAUI ANIMAL REFUGE

Type: ROUTINE INSPECTION
Date: 11-JUL-2018

2.131(b)(1)

HANDLING OF ANIMALS.

The facility is currently allowing some of the goats, sheep, deer, and a cow to use the fenced parking lot area as an enclosure by allowing free access to this area. The area presents several hazards for the animals. The motor vehicles present a risk of running over, or striking the animals when they are moving, and also the risk of leaking fluids, such as antifreeze, which is palatable and lethal to animals. Additionally the area includes some discarded items, such as a roll of wire fencing and sheets of corrugated metal, which have sharp surfaces and an entanglement risk, and bags of trash in plastic bags which could be torn open and ingested by the animals.

Handling of all animals shall be done as carefully as possible in a manner that does not cause trauma or physical harm. Handling the animals in this manner - allowing them access to this parking area which was not intended as an animal enclosure, puts the animals at risk of trauma or physical harm. The facility should ensure that the animals are handled in a manner which protects them from harm, and this includes safe surroundings in their enclosures.

To be corrected by 8/15/18.

This inspection and exit interview were conducted with the facility representatives.
