Pleasanton, TX 78064

Customer ID: **5929**

Certificate: **74-B-0293**

Site: 001

Rancho Raton Inc.

Type: ROUTINE INSPECTION

Date: 27-APR-2015

3.26(b)

FACILITIES, INDOOR.

There is a strong odor of ammonia at the far end of the dwarf hamster room this date. The ammonia odor was strong enough to cause my nose and eyes to burn. High levels of ammonia may also be expected to cause irritation to the animals housed in this room. Enclosures appear clean so the odor is likely accumulating due to inadequate ventilation as there is no exhaust fan in this room. Ventilation must be increased in this room to provide a healthy environment for the animals.

CORRECT BY : 5-5-15

The inspection and exit briefing was conducted with the owner.
