Site: 006
APET Inc.

Type: ROUTINE INSPECTION
Date: 29-JAN-2025

3.154

Environment enhancement to promote psychological well-being.

The facility does not have a written and documented program for the environmental enrichment of the multiple species of birds housed at the facility. Failure to develop a written environmental enhancement plan for birds can negatively impact their health and well-being, causing unnecessary psychological distress. The licensee must develop, document, and follow a species-appropriate plan for environmental enhancement adequate to promote the psychological well-being of birds. The plan must be in accordance with the currently accepted professional standards and must address all points in section 3.154. Correct by February 12, 2025.

This inspection and exit interview were conducted with a facility representative.
