

Inspection Report

Prescott Animal Park Assn.
1403 Heritage Park Rd.
Prescott, AZ 86301

Customer ID: **3452**

Certificate: **86-C-0082**

Site: 001

PRESCOTT ANIMAL PARK ASSOCIATION

Type: ROUTINE INSPECTION

Date: 10-AUG-2017

3.125(a) REPEAT

FACILITIES, GENERAL.

The night enclosure of the lynxes and the night enclosure of the clouded leopards both had a light fixture with an exposed light bulb that was not covered. The exposed light bulb poses a risk of injury to the animals if it breaks and glass gets into the enclosure of these animals.

The primary fence in the mountain lion exhibit had gaps between the chain link fence reinforcement and the poles to which they were attached. In one area the logs inside the enclosure were pressing up against the primary fence causing a slight gap between the fence reinforcement and the poles to which they were attached. The primary fence is there to enclose the animal and protect the public. If these gaps become larger, they pose a risk of the animal getting out or entrapped and could be a safety issue for the public.

The primary fence in the goat exhibit had gaps between it and the ground. These gaps were large enough that a goat's horns or head could get stuck underneath and therefore poses the risk of injury to animals in the enclosure.

A system of facility monitoring and maintenance should be in place and to ensure all animal facilities are structurally sound and in good repair to protect the animals from injury and/or escape.

Date to be Corrected: August 17, 2017

This inspection and exit briefing were conducted with the facility's representative.

Additional Inspectors

Schnell Michael, Veterinary Medical Officer
