2.40(a)(1)

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

The written Program of Veterinary Care (PVC) states that annual visits by the attending veterinarian will be made to the facility. The licensee stated it had been approximately 1 1/2 years since the attending veterinarians last visit.

Each exhibitor shall employ an attending veterinarian under formal arrangements. In the case of a part-time attending veterinarian or consultant arrangements, the formal arrangements shall include regularly scheduled visits to the premises of the exhibitor to ensure adequacy of care for the animals held at the facility.

Ensure the attending veterinarian visits the facility, at a minimum, as often as written in the PVC.

3.125(a)

Facilities, general.

The primary enclosure housing two bull reindeer has a fence running down the middle of the outside pasture. This fence runs approximately 3/4 of the length of the pasture, and can be used to separate animals. The end of the fence that is nearest to the barn has an area at the top that has pulled away from the fence post, and has sharp points.

Outdoor housing facilities shall be structurally sound and shall be maintained in good repair to protect the animals from injury.

Maintain all fencing so that it is sound and in good repair.
