CARRINGTON COLLEGE CALIFORNIA (PLEASANT HILL)

Type: ROUTINE INSPECTION

Date: 22-MAR-2016

### 2.33(b)(1)

#### ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE.

The anesthesia machines on site were overdue to be serviced. The three machines in the surgery room were last serviced 12/14, and due for service 12/15. There was not a machine on site that was current on annual service. The facility is currently within a semester of surgery lab instruction that would employ this equipment.

The facility should ensure the availability of appropriate equipment as part of their program of adequate veterinary care, in order to safeguard the well-being of the animals.

To be corrected prior to engaging in any covered activities involving this equipment. The facility should ensure that their equipment at all sites is maintained according to recommendations and professional standards.

### 2.35(f)

#### RECORDKEEPING REQUIREMENTS.

The report from the semi-annual program review and facility inspection from May 2015 was not available for review at the time of inspection. The semiannual reports shall be updated at least once every 6 months upon completion of the required semiannual evaluation and shall be maintained by the research facility and made available for inspection upon request. Efforts to obtain the report via phone or email were not successful.

The copies of teaching protocols on site consist of forms that contain animal numbers that are filled in by hand, and the form was signed by the Principle Investigator (PI) in May 2015, but there is no indication that the IACUC had approved the specific animal numbers applicable to this location. The attached IACUC approval form had not been filled out or signed. Official IACUC approved versions were not available for inspection, despite efforts via phone and email.

Failure to provide access to records, such as protocols with IACUC approval documentation, and semi-annual review reports, impedes the assessment of animal activities and compliance with animal welfare regulations.
