Certificate: **43-A-0760**
Site: 001
KAREN CRUME

Type: ROUTINE INSPECTION
Date: 21-JUL-2015

3.1(e)

HOUSING FACILITIES, GENERAL.

(e) Storage.

The licensee was not properly storing her unopened supply of dog food. She had one remaining bag of dog food and it was being stored on the floor of a three-sided carport. Animals had torn two holes in the top of the bag and one larger hole in the bottom of the bag. Over half of the contents of the bag were missing. Dog food must be properly stored to prevent spoilage, contamination, and vermin infestation. The licensee must ensure that all unopened supplies of dog food are stored off of the floor and away from the walls to allow cleaning underneath and around the supplies. The licensee must store dog food in a manner and location that prevents vermin and other animals from entering the bags.

TO BE CORRECTED BY JULY 28, 2015.

The inspection and the exit briefing were conducted with the licensee.
