### 2.131(c)(1)

#### Handling of animals.

\*\* The facility offers Sloth encounters to the public. The encounters include the Sloth hugging and or its head and mouth next to the paying guest head and throat area. This has been verified by photographic evidence from the facility's social media page. During public exhibition the animal must be handled so there is minimal risk of harm to the animal and public. The facility is not providing that. The Sloth could bite or scratch the person holding the animal which could also possibly injure the animal. The facility has to take measures to ensure that the Sloth is not around the face head and neck area of the public. Any animal must be handled so there is minimal risk of harm to the animal and to the public. To be corrected from this day forward, 08-05-2025.

This inspection and exit interview were conducted with licensee.
