#### RECORDS: DEALERS AND EXHIBITORS.

On today's inspection, there was an adult female husky housed in the kennel with the rest of the puppies the facility maintained on site. This dog had a note on it's enclosure identifying it as being the "Owners Dog". This dog was being held in an enclosure by it's self. However; it was in a enclosure under and next to enclosures containing puppies currently being maintained by the facility. This animal was not on the facilities acquisition records and did not have any form of ID other then the had written note on the outside of the enclosures that stated, "owners dog". This facility must maintain acquisition records for all animals housed at the facility and maintained along with the rest of the facilities animals.
